

SOT Minutes 10/10/19

Attendees

Aaron Paris

Glenda Alberti

Fatuma Abdullahi

Brianna Lingberg

Julie Munson

Kimberly Henry

Shellee Brassard

Michelee Crawford

Michelle Wheatfill

1) Title I & SPP - The team discussed Title I funding will be used to provide staffing to enable smaller class sizes and provide teachers with learning strategists to support navigating our new curriculum and data gathering programs. This facilitates purposeful small groups and interventions for all students. SPP goals reviewed and discussed. SPP goals are a continuation of last year with minor adjustments.

2) Front of school fence design - The team loved the idea of decorating it using clip on plastic cups. The team suggests generating ideas of what the school would like to see prior to purchasing and materials.

2) Community Garden- The team identified the location of the potential garden. The location is near the front gates along the tree line.

3) Riverbed beautification plan - The team agreed the project would benefit the school by promoting unity and with beautification. Project is being developed by Julie Munson and further details will be available in the future.

4) Overall School Beautification - The team identified two main locations for overall revitalization: Kindergarten playground and Primary Playground (near cafeteria). Ideas included: (re)painting the shapes and games on the ground, murals and motivational statements on the walls, adding colors to the walls and pillars, and finally adding seating to the shaded areas (bolted down benches or picnic tables). Additionally, the team enjoyed the idea of putting motivational statements across the campus in locations where students visit frequently.

5) Team was notified of November 14th meeting where funding sources will be discussed.
